Welcome

Welcome to IndianaVoters.com, your Indiana Statewide Voter Registration System (SVRS) Public Information Site. Since January 2006, the State of Indiana has maintained a single, uniform electronic database containing the voter registration records for all of Indiana's 92 counties. The SVRS is linked to the Indiana Bureau of Motor Vehicles database and the Social Security Administration database to help verify voter registration application. The system also exchanges data with the Indiana Department of Health and Department of Correction to assist local election officials in their efforts to remove deceased and incarcerated voter convicted of crimes. *The information each voter will view on this website is supplied and maintained at the county level. If this information is incorrect, you will need to notify your County Clerk or Board of Voter Registration.*
